PROJECT DETAILS

CentrePort Canada Way (ccw)

The project involved the design and build of grade separations for the CCW transportation corridor in the Northwest quadrant in the City of Winnipeg, RM of Rosser and RM of Headingley.

The grade separations included in the project consists of:

1. An interchange of PTH 101 and CCW
2. Grade separation of CCW over both the CP Railway Carberry Subdivision & Omand's Creek
3. Grade separation of PTH 101 over both the CP Railway Glenborough Subdivision and Saskatchewan Avenue in Winnipeg

Major Items of Work:

- 340,000 cubic metres of topsoil stripping
- 400,000 cubic metres of granular materials
- 1,453,000 cubic metres of common excavation
- Erosion & Sediment Control
